

Flashing Yellow Left-Turn Arrow Signal

Steady Red Arrow-Drivers turning left must stop and wait

Steady Yellow Arrow-Drivers are warned to stop. Vehicles in the intersection should complete their turn when opposing traffic does not conflict.

Flashing Yellow Arrow-Drivers are allowed to turn left after yielding to oncoming traffic and pedestrians. Oncoming traffic has a green light.

Steady Green Arrow-Drivers making a left turn have the right-of-way.

The Charlotte Department of Transportation is one of the first jurisdictions in the U.S. and the first in the state of NC to implement a new flashing yellow arrow left-turn signal light. It's been proven to be safer and easier to understand than previous signal lights.
