

## BUILDING ELEVATIONS FROM GRADE

To determine your building height from grade, submit your measurements in the in the appropriate box's below. Areas in yellow are required information needed to process your permit application.

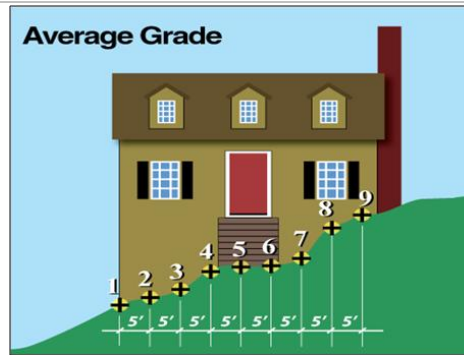

## CALCULATING THE AVERAGE GRADE

As an option to the above requirement, average height from grade calculations can be determined by the two following methods. If utilizing this option, indicate your calculations in the spaces provided.

Adding the lowest and the highest point and dividing by 2

Adding all points, at five-foot intervals, starting at the corner along the base of the building and dividing the total by the number of points.

This measurement is for the:

F – Front

\_\_\_\_\_ ft

L – Left side

\_\_\_\_\_ ft

R- Right side

\_\_\_\_\_ ft

### ROOF TYPE

Check a box to indicate the roof type.
